📎 WIREFRAME INDEX

Purpose: Define the full scope. No renaming. No missing screens.

🔒 Wireframe Index (Phase-locked)

PUBLIC PAGES

- **WF-P1** — Home / Landing *(Phase 1)*
- **WF-P2** — Services & Pricing *(Phase 1)*
- **WF-P3** — About NoAgent *(Phase 1)*
- **WF-P4** — Legal Hub *(Phase 1)*
- **WF-P5** — Contact / Support *(Phase 1)*
- **WF-P6** — Public Property Page *(Phase 1 – same component as WF-O5)*

OWNER WORKSPACE

- **WF-O1** — Owner Dashboard *(Phase 1)*
- **WF-O2** — My Listings + Wizard *(Phase 1)*
- **WF-O3** — Inquiries & Offers *(Phase 1)*
- **WF-O3A** — Agent Search / Agent Introduction *(Phase 1 – light panel / modal)*
- **WF-O4** — Calendar *(Phase 1)*
- **WF-O5** — Public Property Page (Owner Preview) *(Phase 1)*

HOME-HUNTER WORKSPACE

- **WF-H1** — Home-Hunter Dashboard *(Phase 1)*
- **WF-H2** — Inbox *(Phase 1)*
- **WF-H3** — My Bookings *(Phase 1)*
- **WF-H4** — Saved Places *(Phase 1)*
- **WF-H5** — Offers & Applications *(Phase 1)*
- **WF-H6** — Survey Hub *(Phase 2 – greyed)*

ADMIN WORKSPACE

- **WF-A1** — Admin Dashboard *(Phase 1)*
- **WF-A2** — Global Listings Overview *(Phase 1)*
- **WF-A3** — Users (Owners / Home-Hunters / Agents / Partners) *(Phase 1)*
- **WF-A4** — Integrations Overview *(Phase 1)*
- **WF-A5** — Support / Requests *(Phase 1)*
- **WF-A6** — Surveys & Reports *(Phase 2 – greyed)*
- **WF-A7** — Tasks *(Phase 2 – greyed)*
- **WF-A8** — Billing *(Phase 1 – light)*
- **WF-A9** — Analytics *(Phase 1 – read-only)*

⚠️ **Rules**

- Names are frozen
- Phase 2 must be clearly greyed
- No merging or inventing screens

PRODUCT SUMMARY (1 PAGE)

Purpose: Align thinking. Avoid “pretty but wrong”.

What is NoAgent?

NoAgent is a **property workspace** for owners, home-hunters, and real agents.

It helps people:

- list property once
- manage inquiries, viewings, and offers
- coordinate with agents **without commission**
- avoid inbox spam and admin chaos

NoAgent is **not**:

- a traditional estate agent
- a listing portal
- a marketing website

Who this project is for

- **Owners** — selling or renting
- **Home-Hunters** — booking viewings & making offers
- **Real Agents** — optional, introduced via NoAgent
- **Admins** — internal control & integrations

What this task is (very important)

✅ Visualising flows

✅ Aligning screens

✅ Making complexity understandable

✅ Preparing for development

❌ Not branding

❌ Not UI polish

❌ Not UX research

❌ Not development

UX RULES

Purpose: Prevent scope drift.

UX Rules (Must Follow)

1. **Do not simplify flows**
2. **Do not remove screens**
3. **Do not rename wireframes**
4. **Reuse patterns** (cards, tables, panels)
5. **Phase 2 = greyed**, not removed
6. **Labels over beauty**

7. **Ask before changing structure**
8. **Consistency > creativity**

If unsure → **ask first**.

TOOLS & ACCESS

Purpose: Remove setup friction.

Tools You Will Use

- **Figma** (UI wireframes)
- **FigJam** (flows & relationships)

You will:

- work inside my files
- not create external documents
- follow naming conventions exactly

I will invite you via email.

Folder Structure

- 📁 Public Pages
- 📁 Owner Workspace

- 📁 Home-Hunter Workspace
- 📁 Admin Workspace
- 📁 Shared Components
- 📁 FigJam Flows

ACCEPTANCE CRITERIA (DEFINITION OF DONE)

Purpose: Define success.

Work is complete when:

- All **Phase 1 wireframes exist** in Figma
- All **Phase 2 items are visible but greyed**
- End-to-end flows are mapped in FigJam
- I can explain the product **without extra explanation**
- Nothing critical is missing or renamed

This is a **skeleton & alignment task**, not final design.
